Dear Mr. Añel,

thanks a lot for the comment. We produced a doi of the CLIMADA v2.2 release via zenodo which is suitable for longterm digital storage (the doi is <https://doi.org/10.5281/zenodo.5084352>). We will update the manuscript accordingly (in the 'Code and Data Availability' section) once the discussion phase is closed.

Best regards, Samuel et al.
