Author comment on "A dynamic local-scale vegetation model for lycopsids (LYCOM v1.0)"  
by Suman Halder et al., Geosci. Model Dev. Discuss.,  
<https://doi.org/10.5194/gmd-2021-202-AC2>, 2021

---

We would like to thank you for reviewing our manuscript. We value the comments and will try to address all the concerns to the best of our abilities. The suggestions are highly appreciated and a revised version addressing the comments will be uploaded soon to improve the introduction and the readability of the article.

Please also note the supplement to this comment:
