## **Comment on gmd-2021-212**

Jiming Jin et al.

---

Author comment on "Improved runoff simulations for a highly varying soil depth and complex terrain watershed in the Loess Plateau with the Community Land Model version 5" by Jiming Jin et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-212-AC1>, 2021

---

We have actually addressed this issue in the revised manuscript in the early stage. For some reason, the revised manuscript was not posted here.
