Comment on gmd-2021-215

Astrid Kerkweg

Chief editor comment on "A three-dimensional variational data assimilation system for aerosol optical properties based on WRF-Chem v4.0: design, development, and application of assimilating Himawari-8 aerosol observations" by Daichun Wang et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-215-CEC1>, 2021

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.2: <https://www.geosci-model-dev.net/12/2215/2019/>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the 'Manuscript Types' section: http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add the version number of WRF-Chem to the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
