Chief editor comment on "Calibrating the soil organic carbon model Yasso20 with multiple datasets" by Toni Viskari et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2021-273-CEC1, 2021

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.2: https://www.geosci-model-dev.net/12/2215/2019/

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the 'Manuscript Types' section: http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

■ "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add a version number of Yasso to the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
