Author comment on "EuLerian Identification of ascending AirStreams (ELIAS 2.0)
in numerical weather prediction and climate models – Part 1: Development of deep
learning model" by Julian F. Quinting and Christian M. Grams, Geosci. Model Dev.
Discuss., <https://doi.org/10.5194/gmd-2021-276-AC1>, 2021

Dear Reviewer,

We are grateful for your very positive feedback on our manuscript. We very much hope
that the novel diagnostic will be useful for the wider seasonal forecasting and climate
modelling community and look forward to the first diagnostic applications.

Kind regards,

Julian Quinting & Christian Grams
