Zhen Yin et al.

Author comment on "Mapping high-resolution basal topography of West Antarctica from radar data using non-stationary multiple-point geostatistics (MPS-BedMappingV1)" by Zhen Yin et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-297-AC1>, 2021

Please see our "point-to-point" responses in the supplemented PDF file. The reviewer's comments and suggestions have also been addressed in the revised paper manuscript.

Please also note the supplement to this comment:
