Comment on gmd-2021-304

Astrid Kerkweg

Chief editor comment on "Novel coupled permafrost–forest model (LAVESI–CryoGrid v1.0) revealing the interplay between permafrost, vegetation, and climate across eastern Siberia" by Stefan Kruse et al., Geosci. Model Dev. Discuss.,
<https://doi.org/10.5194/gmd-2021-304-CEC1>, 2021

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.2: <https://www.geosci-model-dev.net/12/2215/2019/>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the 'Manuscript Types' section: http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add the model name (CryoGrid) and a respective version number in the title upon your revised submission to GMD.

Yours,

Astrid Kerkweg
