Author comment on "Metrics for Intercomparison of Remapping Algorithms (MIRA)
protocol applied to Earth system models" by Vijay S. Mahadevan et al., Geosci. Model
Dev. Discuss., <https://doi.org/10.5194/gmd-2021-323-AC1>, 2021

Dear readers and reviewers,

I wanted to bring to your attention that there is a slight modification to the author list in the original manuscript submitted to GMD. We have added Dr. David Marsico to the list of authors and have described his contributions as well to provide due credit. Since the discussions are already open, we are unable to update the pdf at the moment. So this is for your information only, and we will finalize the change when the reviews are complete.

Thank you,

Vijay Mahadevan
