Editor comment on "On the impact of dropsondes on the ECMWF Integrated Forecasting System model (CY47R1) analysis of convection during the OTREC (Organization of Tropical East Pacific Convection) field campaign" by Stipo Sentić et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-354-EC2>, 2021

---

Dear Dr. Sentić,

in such cases, you need to reason in the section of "Code and data availability" why the code is not publicly available. In addition, you can provide the information on how to obtain the publicly available version of the code and its licence.

Best regards,

Yuefei Zeng
