Dear authors,

After checking your manuscript, it has come to our attention that it does not comply with our Code and Data Policy.

[https://www.geoscientific-model-development.net/policies/code\\_and\\_data\\_policy.html](https://www.geoscientific-model-development.net/policies/code_and_data_policy.html)

Unfortunately, we can not accept that tARget v3 is available only on personal request. This software is a critical part of your work, and therefore must be included with the manuscript. You must deposit it in one of the acceptable repositories following our policy, under a FLOSS (free-libre open source) license, and you must obtain a DOI for it. Then you must cite it in the manuscript.

Also, we can not accept that you restrict access to ARTMIP data. In the same way, you must add the relevant data for the work to the repository.

Please, address these issues as soon as possible to continue with the Discussions stage and the review process for your manuscript.

Regards,

Juan A. Añel
