Author comment on "Effects of point source emission heights in WRF–STILT: a step towards exploiting nocturnal observations in models" by Fabian Maier et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2021-386-AC4, 2022

Dear Juan A. Añel,

we have published our code together with the calculated particle location fields and a license on Zenodo: https://doi.org/10.5281/zenodo.5911518.

We will include this DOI in the future versions of our manuscript.

Kind regards,

Fabian Maier
