Community comment on "Sensitivity of tropospheric ozone to halogen chemistry in the chemistry-climate model LMDZ-INCA vNMHC" by Cyril Caram et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-388-CC1>, 2022

Dear Juan Antonio Añel,

we apologize , we thought it was OK at this stage to provide a temporary link to allow the reviewers to consult the material and to consolidate it later if the manuscript was accepted. We will do our best to fix this problem as soon as possible.

Best regards

Sophie Szopa
