Author comment on "Modeling the high-mercury wet deposition in the southeastern US with WRF-GC-Hg v1.0" by Xiaotian Xu et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-404-AC1>, 2022

Dear Astrid,

Thanks for your message. We have modified the title with version number in our own manuscript. Since this manuscript is still under review, I planned to submit the modified title later with the revision of whole manuscript after I receive comments from reviewers.

My apologies.
