Author comment on "Efficient high-dimensional variational data assimilation with machine-learned reduced-order models" by Romit Maulik et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2021-415-AC1, 2022

Dear Dr. Añel - thank you for your comment. Our repository and data set is now public and available here:

https://github.com/AIEADA/LSTM_Var_Prototype

We are continuing to work on the revision to the Referee comments and will update the main manuscript shortly.
