Community comment on "UniFH_y v0.1.1: a community modelling framework for the terrestrial water cycle in Python" by Thibault Hallouin et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-419-CC1>, 2022

The code is available on zenodo at <https://doi.org/10.5281/zenodo.4726695>, which is linked from the documentation, but yes, we failed to put the direct link in the code availability section. We can alter the text in the manuscript now, or after review, as you prefer.
