Chief editor comment on "UniFHy v0.1.1: A community modelling framework for the terrestrial water cycle in Python" by Thibault Hallouin et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-419-CEC2>, 2022

Dear authors,

Many thanks for pointing out the Zenodo repository in public. Indeed, the Zenodo repository was listed in the records of your manuscript in our editorial manager system. It is enough that it is available in the Discussions' comments. In this way both the community and reviewers have access to it. Please, remember to add it to the 'Code and Data availability section' in future reviewed versions.

Regards,

Juan A. Añel

Geosc. Mod. Dev. Executive Editor
