## **Comment on gmd-2021-437**

Zélie Stalhandske

---

Community comment on "Uncertainty and sensitivity analysis for probabilistic weather and climate-risk modelling: an implementation in CLIMADA v.3.1.0" by Chahan M. Kropf et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-437-CC1>, 2022

---

This is a very much needed addition for a thorough risk analysis. In the online documentation of CLIMADA, a set of helper methods for basic uncertainty distributions are described. It would be helpful to also provide a description of the mentioned helper methods in this article.
