Author comment on "Estimating global land system impacts of timber plantations using
MAGPIE 4.3.5" by Abhijeet Mishra et al., Geosci. Model Dev. Discuss.,
<https://doi.org/10.5194/gmd-2021-76-AC3>, 2021

Dear Dr. Huppmann,

Thank you for your helpful comments. We have now tried to address the comments received from both the reviewers in our author comments. Especially, the comments regarding proper modeling of rotation length in plantations was very helpful in improving our manuscript. All the changes requested from both reviewers will be reflected in our revised manuscript.

Best regards,

Abhijeet Mishra (on behalf of all co-authors)
