Comment on gmd-2021-76

Daniel Huppmann (Editor)

Editor comment on "Estimating global land system impacts of timber plantations using
MAGPIE 4.3.5" by Abhijeet Mishra et al., Geosci. Model Dev. Discuss.,
<https://doi.org/10.5194/gmd-2021-76-EC1>, 2021

Dear authors,

My apologies that it took longer than expected to obtain two reviews of your manuscript.
Please submit a revised manuscript and respond to the comments, in particular the
question of properly modelling rotation duration of forest management has been raised by
both reviewers.

Best regards,
Daniel Huppmann
