Comment on gmd-2022-117

Juan Antonio Añel

Chief editor comment on "DeepISMNet: three-dimensional implicit structural modeling with convolutional neural network" by Zhengfa Bi et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-117-CEC1>, 2022

Dear authors,

After checking your manuscript, it has come to our attention that it does not comply with our "Code and Data Policy".

https://www.geoscientific-model-development.net/policies/code_and_data_policy.html

You have archived the code corresponding to the neural networks on GitHub. However, GitHub is not a suitable repository. GitHub itself instructs authors to use other alternatives for long-term archival and publishing, such as Zenodo. Therefore, please, publish your code in one of the appropriate repositories. Also, please, remind that you must include in a potential reviewed version of your manuscript the modified 'Code and Data Availability' section, with the DOI of the code.

Be aware that failing to comply with this request could result in the rejection of your manuscript for publication.

Regards,

Juan A. Añel

Geosci. Model Dev. Exec. Editor
