Author comment on "Evaluating a reservoir parametrization in the vector-based global routing model mizuRoute (v2.0.1) for Earth system model coupling" by Inne Vanderkelen et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-16-AC1>, 2022

Dear Juan A. Añel,

Thank you for pointing this out. We have filed our code repository on Zenodo, and can be accessed on the following DOI: [10.5281/zenodo.6490979](https://doi.org/10.5281/zenodo.6490979)

This repository already include the updates after the first round of review and we also include this DOI in the revised version of the manuscript.

Best regards,

Inne
