Comment on gmd-2022-2

Juan Antonio Añel

Chief editor comment on "Global, high-resolution mapping of tropospheric ozone – explainable machine learning and impact of uncertainties" by Clara Betancourt et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2022-2-CEC1, 2022

Dear authors,

After checking your manuscript, it has come to our attention that it does not comply with our Code and Data Policy.
https://www.geoscientific-model-development.net/policies/code_and_data_policy.html

You have archived your code in Gitlab. However, Gitlab is not a suitable repository. Therefore, please, publish your code in one of the appropriate repositories listed in our policy. In this way, you must include in a potential reviewed version of your manuscript the modified 'Code and Data Availability' section, including the DOI of the code.

Please, reply as soon as possible to this comment with the new link to the repository, so that it is available for the peer-review process, as it should be.

Regards,

Juan A. Añel
Geosci. Model Dev. Exec. Editor
