Dear authors,

Many thanks for making the code available on Zenodo.org. Please, remove from the statement the references to GitHub. The Code and Data Availability section is not intended to advertise, promote or point out where to find the last version of your model, but to assure replicability of the work submitted. In this way, the only relevant version is the one stored in Zenodo.org, and any other link is irrelevant and can introduce unnecessary confusion.

Juan A. Añel

Geosci. Model Dev. Executive Editor
