Daiane Iglesia Dolci et al.

Author comment on "Effectiveness and computational efficiency of absorbing boundary conditions for full-waveform inversion" by Daiane Iglesia Dolci et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-48-AC2>, 2022

We would like to thank the reviewer for his/her comments on the manuscript. The compressed directory **rc2.zip** has the responses to the issues raised in the review (**response_rc2.pdf**). We also added the document **diff.pdf** that shows the modifications performed in the version of the revised manuscript.

Please also note the supplement to this comment:
