Ensheng Weng et al.

Author comment on "Modeling demographic-driven vegetation dynamics and ecosystem biogeochemical cycling in NASA GISS's Earth system model (ModelE-BiomeE v.1.0)" by Ensheng Weng et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-72-AC1>, 2022

Thanks for the comments.

We have included a GPLv3 licence file by including '<https://www.gnu.org/licenses/gpl-3.0.txt> and made the codes publicly available at <https://doi.org/10.5281/zenodo.6476152>.

The simulated data have been archived at Zenodo (<https://doi.org/10.5281/zenodo.6480411>).

The 'Code and Data Availability' section has been revised accordingly. We will submit it at the request of a revised version.

Best regards,

Ensheng Weng (on behalf of all coauthors)
