Andrew Geiss et al.

Author comment on "Downscaling atmospheric chemistry simulations with physically consistent deep learning" by Andrew Geiss et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-76-AC1>, 2022

I have added a GNU GPL 3.0 license file to the github repository and generated a Zenodo link and DOI for the project code: [10.5281/zenodo.6502896](https://doi.org/10.5281/zenodo.6502896)
