Comment on gmd-2022-76 (response to reviewers)

Andrew Geiss et al.

Author comment on "Downscaling atmospheric chemistry simulations with physically consistent deep learning" by Andrew Geiss et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-76-AC4>, 2022

Thank you to the reviewers for their helpful comments. We have attached detailed responses in a PDF and have prepared a revised manuscript with your suggested changes.
