Chief editor comment on "Thermal modeling of three lakes within the continuous permafrost zone in Alaska using the LAKE 2.0 model" by Jason A. Clark et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-9-CEC3>, 2022

---

Dear authors,

Many thanks for the information and apologies for the misunderstanding about ESS-DIVE. Yes, we can accept it. We receive many papers with data stored directly on LBL servers or similar (PNNL, NCAR, etc.), which are not suitable, and I did not realize that it was one of the services covered by FairSharing.org.

Regards.

Juan A. Añel

Geosci. Model Dev. Exec. Editor
