David E. Gwyther et al.

Author comment on "Observing system simulation experiments reveal that subsurface temperature observations improve estimates of circulation and heat content in a dynamic western boundary current" by David E. Gwyther et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2022-98-AC2>, 2022

We thank the reviewer 2 for their comment.

We have provided a point-by-point response to all comments (see attached). We have also corrected the manuscript accordingly.

Kind regards,

David Gwyther (on behalf of the co-authors)
