Thomas Lees

Community comment on "Benchmarking data-driven rainfall–runoff models in Great Britain: a comparison of long short-term memory (LSTM)-based models with four lumped conceptual models" by Thomas Lees et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2021-127-CC2>, 2021

Thank you! That has been updated based upon the best results taken from Table 3 on Page 75 of: Crooks, Susan M., et al. "From catchment to national scale rainfall-runoff modelling: demonstration of a hydrological modelling framework." *Hydrology* 1.1 (2014): 63-88.

Please also note the supplement to this comment:
