Community comment on "Benchmarking data-driven rainfall–runoff models in Great Britain: a comparison of long short-term memory (LSTM)-based models with four lumped conceptual models" by Thomas Lees et al., Hydrol. Earth Syst. Sci. Discuss., https://doi.org/10.5194/hess-2021-127-CC3, 2021

But the point is that Table 3 of Crooks et al. 2014 is results from the preliminary version of the model ('Section 3.1 Initial Results'). The results following development of the model are in Figure 5 ('Section 3.3 Final Results'). The latter also covers a larger set of catchments and a longer time period (1991-2000).
