Author comment on "Contrasting lacustrine groundwater discharge and associated nutrient loads in different geological conditions" by Xiaoliang Sun et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2021-364-AC4>, 2021

---

Thanks to the reviewers for comments and the editor for handling of the manuscript. Those comments are valuable and very helpful for revising and improving our paper, as well as the important guiding significance to our research. We have studied all comments carefully and responded the comments to the manuscript. In "response to comments", blue parts are the corresponding corrected sentences.
