Author comment on "Advances in the hydraulic interpretation of water wells using
flowmeter logs" by Jesús Díaz-Curiel et al., Hydrol. Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/hess-2021-380-AC4>, 2021

Thank you very much for your comments. We agree with the interest of conducting similar studies in other aquifers with these characteristics, although at this time we do not have such data. In fact, the manuscript mentions a future line of action to determine the spatial extension of this behavior in this particular aquifer.
