Comment on hess-2021-380 - Advances in the Hydraulic Interpretation of Water Wells Using Flowmeter Logs

Teresa Valente

Community comment on "Advances in the hydraulic interpretation of water wells using flowmeter logs" by Jesús Díaz-Curiel et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2021-380-CC2>, 2021

Very interesting work.

I believe this methodology is novel, comparing with that which is classically adopted. The procedure considers that, vertically, the multilayer basins can be modeled, as a whole, as an equivalent porous model.
