Author comment on "Barriers to mainstream adoption of catchment-wide natural flood management: a transdisciplinary problem-framing study of delivery practice" by Thea Wingfield et al., Hydrol. Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/hess-2021-404-AC2>, 2021

We are very pleased that you enjoyed the paper and have praised the quality of the work.

Thank you for your suggestion in including motivations of land owners even at their own financial cost in light of the barrier statement generated and scored in this work of - land owner's resistance. A reflection on the different perspectives and experience on the ground will add a depth to this discussion not fully explored in the paper.
