RESPONSE to Reviewer content:

- Interesting, fun and relevant read.

Response: Thank you for your kind words!

- I have 2 comments:

- minor technical: I could not find the reference but I think Q is missing in the first term in equation 4.

Response: indeed, Q is missing in the first term, this will be fixed

- in general: to highlight/illustrate the relevance of their work maybe connect more (often) to recent work.

eg: <https://link.springer.com/article/10.1007/s10040-020-02226-7> for lines 218-222

Response: good point, we will add more references to current work, including the one suggested for Lines 218-222
