Referee comment on "The Thiem team – Adolf and Günther Thiem, two forefathers of hydrogeology" by Georg J. Houben and Okke Batelaan, Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2021-427-RC1>, 2022

My appologies for taking long to review.

Interesting, fun and relevant read. I have 2 comments:

- minor technical: I could not find the reference but I think Q is missing in the first term in equation 4.

- in general: to highlight/illustrate the relevance of their work maybe connect more (often) to recent work.
