Community comment on "Technical note: Efficient imaging of hydrological units below lakes and fjords with a floating, transient electromagnetic (FloaTEM) system" by Pradip Kumar Maurya et al., Hydrol. Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/hess-2021-540-CC3>, 2022

Looking at the resources on <https://www.fabiocrameri.ch/colourmaps/> might be a first step into this direction.

From my point of view it would be better to ask first the software provider to avoid scientifically wrong color maps and then using the software to publish analyses.
