Referee comment on "A retrospective on hydrological catchment modelling based on half a century with the HBV model" by Jan Seibert and Sten Bergström, Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2021-542-RC3>, 2022

---

Thank you for the authors' accommodating responses. I can agree to most of the answers and for the issues, where I personally do not fully agree, I accept the responses as valid arguments and have no further comments at this stage.

Best regards

Jens Christian
