Community comment on "From mythology to science: the development of scientific hydrological concepts in Greek antiquity and its relevance to modern hydrology" by Demetris Koutsoyiannis and Nikos Mamassis, Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2021-7-CC1>, 2021

Although this appears to be an interesting and comprehensive contribution, it seems clearly outside the scope of HESS. I suggest submission to any one of a dozen or so journals on the history of science, where it will almost certainly find a wider audience.
