Leila Serène et al.

Author comment on "Transit Time index (TTi) as an adaptation of the humification index to illustrate transit time differences in karst hydroystems: application to the karst springs of the Fontaine de Vaucluse system (southeastern France)" by Leila Serène et al., Hydrol. Earth Syst. Sci. Discuss., https://doi.org/10.5194/hess-2022-100-AC5, 2022

Thank you very much for your remarks and comments, they helped us a lot to improve the clarity of the paper.
