Author comment on "Transit Time index (TTi) as an adaptation of the humification index to illustrate transit time differences in karst hydrosystems: application to the karst springs of the Fontaine de Vaucluse system (southeastern France)" by Leïla Serène et al., Hydrol. Earth Syst. Sci. Discuss., https://doi.org/10.5194/hess-2022-100-AC6, 2022

Thank you for this very positive comment, we are very glad that we were able to convince you of the potential of the TTi.
