Community comment on "Precipitation biases and snow physics limitations drive the uncertainties in macroscale modeled snow water equivalent" by Eunsang Cho et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2022-136-CC1>, 2022

Brown et al (2018) demonstrated the same issues with precipitation-related errors in simulated SWE over southern Quebec. See <https://doi.org/10.1002/hyp.13221>
