Author comment on "Does non-stationarity induced by multiyear drought invalidate the paired-catchment method?" by Yunfan Zhang et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2022-166-AC1>, 2022

Dear Anonymous Referee #1,

Thanks very much for your great efforts to assess our manuscript. We have studied your comments carefully and will make corrections/revisions as suggested. Please check the detailed replies in the supplement. A revised manuscript which specifies the adjustments based on your comments will be provided at a later stage, awaiting the editor's decision.

We are looking forward to your further assessment.

With best regards,

Yunfan Zhang and co-authors
