Author comment on "Characterizing 4 decades of accelerated glacial mass loss in the west Nyainqentanglha Range of the Tibetan Plateau" by Shuhong Wang et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2022-179-AC1>, 2022

Dear Reviewer,

Many thanks for your valuable comments on our manuscript (#hess-26-3901-2022) titled "Characterizing four decades of accelerated glacial mass loss in the West Nyainqentanglha Range of the Tibetan Plateau." We have carefully addressed your concerns and suggestions. The quality of this manuscript has been enhanced.

In the attached Response to RC1, we provide point-by-point response to each reviewer comments (blue colored texts are our responses, while black texts are original comments).

Once again, we appreciate the time the reviewers put in reading our manuscript, and the comments were valuable, refreshing, and encouraging. My co-authors and I hope that we have adequately addressed all the review comments.

Sincerely Yours,

Jintao Liu, Shuhong Wang & Hamish D. Pritchard
