Dear Reviewer,

Many thanks for your valuable comments on our manuscript titled "Effect of tides on river water behavior over the eastern shelf seas of China" [hess-2022-247]. We have carefully addressed your concerns and suggestions. The quality of our manuscript has been improved. In the attached Response to RC1, we provide point-by-point responses to each comment (blue-colored texts are our responses, while black texts are original comments). My co-authors and I hope that we have adequately addressed all the review comments.

Sincerely Yours,

Lei Lin (on behalf of the co-authors)
