Jiarong Wang et al.

Author comment on "Changes in nonlinearity and stability of streamflow recession characteristics under climate warming in a large glaciated basin of the Tibetan Plateau" by Jiarong Wang et al., Hydrol. Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/hess-2022-25-AC1>, 2022

We thank Dr. Rupp for his comments and suggestions that help us to reevaluate the recession methodology used in our study.

Please also note the supplement to this comment:
