Author comment on "Flood patterns in a catchment with mixed bedrock geology and a hilly landscape: identification of flashy runoff contributions during storm events" by Audrey Douinot et al., Hydrol. Earth Syst. Sci. Discuss., <https://doi.org/10.5194/hess-2022-26-AC3>, 2022

Dear Prof. David Dunkerley,

We really thank for reviewing our paper. Your comments really helped us to improve the manuscript. We apologise for the time taken to rewrite, but we could not resist adding a number of events to strengthen the paper.

Please find attached the responses to your comments,

Best regards,

Audrey Douinot
