Author comment on "History of the Potsdam, Seddin and Niemegek geomagnetic observatories – Part 2: Seddin" by Hans-Joachim Linthe, Hist. Geo Space. Sci. Discuss., <https://doi.org/10.5194/hgss-2023-2-AC1>, 2023

Dear Kristian,

Thank you very much for your comprehensive check and comments on my manuscript. I followed all your comments, except the one regarding Fig. 9. After my opinion this figure is necessary, because it shows the disturbing effect of the regular operation of the electrical trains, while fig. 8 depicts the effect of the test run of the first train.

With my best regards

Hans-Joachim
